# WILD OVER WATER ZONE

BILL REILICH, SUPERVISOR

# FAQ

Q. Is the splash pad closed during rain?

A. No. However, the splash pad will close for twenty minutes for each clap of thunder or lightning in the area. You can always check our Facebook page for updated weather closings.

Q. Are pets allowed?

A. Only service pets are allowed with proper identification as a service pet. The service pet is not allowed on the splash pad surface and must be cleaned up after.

Q. Is the splash pad available to rent for birthday parties or for group/camp/day care visits?

A. We do not allow groups or birthday parties. Due to the popularity of the splash pad, we cannot ensure everyone's safety and enjoyment with groups also attending.

Q. Can I bring a guest?

A. For the 2020 season, only Greece households are permitted to use the WOW Zone.

# 2020 POLICIES

## FOR PATRON SAFETY DUE TO COVID-19

- GREECE RESIDENTS ONLY.
- NON-RESIDENTS ARE NOT ALLOWED FOR THE 2020 SEASON. THIS INCLUDES NON-RESIDENT RELATIVES OF GREECE RESIDENTS.
- You will need your key tags and license. No entrance will be allowed without valid key tag for all members of the household.
- Renewals or memberships will not be processed at the WOW Zone building.
- There will be time increments to encourage social distancing. At the end of the time, visitors must exit the area.

## SAFETY FIRST!

- Please practice social distancing.
- Once the maximum capacity is reached for the allotted time slot, no additional patrons will be permitted.
- No running is permitted.
- No water toys, balloons or buckets are allowed.
- Water shoes are strongly recommended.
- Adult supervision is required at all times.
- Play at your own risk.
- Climbing on water features is prohibited.

# DID YOU KNOW?

- The Wild Over Water Zone is a 'fresh water' splash pad. The water that comes out of the features is fresh (not recycled). This is similar to water that comes out of your faucet.
- Opened in 2015, it is the largest municipal splash pad in the western region of NY.
- The features are shrink wrapped in the winter to preserve their color and function.
